Announcement

ASEAN-Malaysia 2025 Chairmanship: The Department of Statistics Malaysia (DOSM) will chair the 15th ASEAN Community Statistical System Committee (ACSS15) which aims to strengthen the statistical cooperation towards sustainable regional development.

The Government of Malaysia has declared October 20th as National Statistics Day (MyStats Day), with the theme 'Statistics is the Essence of Life.' Meanwhile, the Fourth World Statistics Day will be celebrated on 20th October 2025, with the theme 'Driving Change with Quality Statistics and Data for Everyone'.

OpenDOSM NextGen is a medium that provides data catalogue and visualisations to facilitate users' analysis and can be accessed through <https://open.dosm.gov.my>.

PREFACE

The monthly Labour Force Report, Malaysia, presents statistics of the labour force, employment and unemployment obtained from the Labour Force Survey (LFS) through a household approach. The implementation of the LFS is based on the guidelines and recommendations of the International Labour Organization (ILO) with reference to the Surveys of Economically Active Population, Employment, Unemployment and Underemployment: An ILO Manual on Concepts and Methods.

The labour force statistics are vital input for labour market analysis, policy formulation, as well as planning, implementing, and monitoring programmes particularly related to human resource development. These statistics also serve as essential references for researchers, economists, academicians, the private sector, and individuals involved in research related to employment and the labour market.

The Labour Force Report for March 2025 describes the labour supply condition based on the current situation. The report also elaborates on the month-on-month changes to examine the immediate effects of recent events. In addition, annual changes from the same month of the previous year are also reported.

The Department of Statistics Malaysia gratefully acknowledges the cooperation and contribution rendered by all parties in making this publication a success. Every piece of feedback and suggestion towards improving future reports is highly appreciated.

DATO' SRI DR. MOHD UZIR MAHIDIN
Chief Statistician Malaysia

GLOSSARY

Actively unemployed	:	Persons who were available for work and were actively looking for a job during the reference week.
Category of skills	:	For reporting purposes, the category of occupation is regrouped into three levels of skills based on the Malaysia Standard Classification of Occupation (MASCO) 2013 as below: <ul style="list-style-type: none"> Skilled workers: <ol style="list-style-type: none"> 1. Managers; 2. Professionals; and 3. Technicians and associate professionals. Semi-skilled workers: <ol style="list-style-type: none"> 4. Clerical support workers; 5. Services and sales workers; 6. Skilled agricultural, forestry, livestock, and fishery workers; 7. Craft and related trades workers; and 8. Plant and machine operators and assemblers. Low-skilled workers: <ol style="list-style-type: none"> 9. Elementary occupations. <p>Starting in January 2022, the category of occupation is based on the Malaysia Standard Classification of Occupation (MASCO) 2020 with the addition of group 0 - Armed Forces occupations.</p>
Economic activity	:	Classification of industries according to the Malaysia Standard Industrial Classification (MSIC) 2008 version 1.0 into five main sectors: Agriculture, Mining & quarrying, Manufacturing, Construction and Services. In the meantime, Manufacturing and Services are further disaggregated into sub-sectors.
Employed	:	All persons who, at any time during the reference week worked at least one hour for pay, profit or family gain either as an employer, employee, own-account worker or unpaid family worker.
Employee	:	A person who works for a public or private employer and receives regular remuneration in wages, salary, commission, tips or payment in kind.
Employer	:	A person who operates a business, a plantation or other trade and employs one or more workers to help him.
Employment-to-population ratio	:	The proportion of the employed population to working-age population.
Inactively unemployed	:	Did not look for work because they believed no work was available or that they were not qualified; Would have looked for work if they had not been temporarily ill or had it not been for weather conditions; and had looked for work prior to the reference week and were waiting for the result of job applications.

GLOSSARY

Labour force participation rate	:	The ratio of the labour force to the working-age population, expressed as a percentage.
Outside labour force	:	All persons not classified as employed or unemployed are classified as outside the labour force. This category consists of housewives, students (including those going for further studies), retired, disabled persons and those not interested in looking for a job.
Own-account worker	:	A person who operates his own farm, business or trade without employing any paid workers to conduct his farm, trade or business.
Skill-related underemployment	:	Those with tertiary education and working in the semi-skilled and low-skilled categories.
Time-related underemployment	:	A group of people who were employed less than 30 hours per week during the reference week because of the nature of their work or due to insufficient work and were able and willing to accept additional hours of work. Persons who were employed more than 30 hours per week during the reference week are considered to be in full employment.
Unemployed	:	Those who did not work during the reference week were classified into two groups, which are actively and inactively unemployed.
Unemployment rate	:	The proportion of the unemployed population to the total population in the labour force, expressed as a percentage.
Unpaid family worker	:	A person who works without pay or wages on a farm, business or trade operated by another member of the family.

CONCEPTS AND DEFINITIONS

What is Labour Force Survey (LFS)?

Labour Force Survey (LFS) was conducted to collect information on the structure and distribution of labour force, employment and unemployment from the perspective of labour supply.

LFS encompasses both urban and rural areas for all administrative districts within all states in Malaysia using multi-modal data collection approach through the personal interview and a Computer-Assisted Telephone Interview (CATI).

The LFS are conducted based on the standard guidelines and recommendations of the International Labour Organization (ILO).

The survey population comprises persons who live in the private living quarters, hence excludes persons residing in institutions such as hotels, hospitals, hostels, prisons, and workers residing in construction worksite.

The working age for the analysis of LFS in Malaysia refers to household members between the age of 15 to 64 years during the reference week, who are either in the labour force or outside the labour force.

LABOUR FORCE

- The population in the working age group of 15 to 64 years (in completed years at last birthday).
- Either employed or unemployed in the reference week.

EMPLOYED

- Persons who, at any time during the reference week worked at least one hour for pay, profit or family gain (as an employer, employee, own-account worker or unpaid family worker).
- Persons who did not work during the reference week because of illness, injury, bad weather, leave, labour dispute and social or religious reasons but had a job, farm, enterprise or other family enterprise to return to.
- Those on temporary lay-off with pay who would definitely be called back to work.

UNEMPLOYED

- Those who did not work during the reference week but are interested to work and seeking for a job.
- Classified into two groups which are actively and inactively unemployed.

OUTSIDE LABOUR FORCE

- All persons not classified as employed or unemployed.
- Example: housewives, students, retirees, disabled persons and those not interested in looking for job.

UNEMPLOYMENT RATE

- The proportion of the unemployed population to the total population in labour force.
- Percentage of the unemployed population in the labour force.

LABOUR FORCE PARTICIPATION RATE

- The economic activity of a population depends on the demographic characteristics of that population.
- The proportion of the economically active population, hence differs between sub-groups of that population.
- These variations are measured by specific activity rates termed as labour force participation rate.
- Labour force participation rate is defined as the ratio of the labour force to the working age population (15 to 64 years), expressed as a percentage.

SEASONAL ADJUSTMENT

- Time-series data are very useful for economist, policy & decision makers and time-series analysts to identify the important features of economics series such as direction, turning point and consistency between other economic indicators. Sometimes this feature is difficult to observe because of seasonal movements. Thus, if seasonal effect can be removed, the behaviour of the series would be better viewed. The estimation and removal of the seasonal effects is called seasonal adjustment.
- Seasonal adjustment is a process to identify and to remove the regular within-a-year seasonal pattern, which may also include the influences of moving holidays and working/trading days effect in each period. The ultimate objective of the process is to highlight the underlying trends and short-term movements in the series.
- In Malaysia, most of the time series data is affected by seasonal effects. Hence, to eliminate the seasonal effect as well as to seasonally adjust the Malaysian economic time series data, a standard seasonal adjustment package, X-12 ARIMA was used by the Department of Statistics Malaysia.

EXPLANATORY NOTES

Starting with the release of Labour Force Statistics (LFS), January 2025, the principal statistics of the labour force are estimated based on the current population estimates of Malaysia.

The revision of the LFS data series is performed when the most recent Population and Housing Census of Malaysia 2020 data is available. This census data is then used for the revision of the LFS data series to include additional information available from the latest Population and Housing Census of Malaysia. This process of incorporating revised population benchmarks is referred to as rebasing. On the same note, revisions are carried out on LFS data for January to December 2024 in stages beginning with January, February, March and December data.

KEY REVIEWS

- In March 2025, the number of **employed persons** further increased, with a rise of **0.3 per cent (+44.5 thousand persons)** to **16.78 million persons** compared to 16.73 million persons in February 2025. The **employment-to-population ratio**, which indicates the ability of an economy to create employment, went up by **0.1 percentage points** to **68.6 per cent** in March 2025 (February 2025: 68.5%).
- Most of the employed persons were primarily concentrated in the Services sector, particularly in Accommodation and food & beverage services; Information & communication; and Professional scientific & technical activities. An increasing number of employed persons has also been seen in the Manufacturing, Construction, Agriculture, and Mining & quarrying sectors.
- In March 2025, the **employees'** category accounted for **75.2 per cent** of the total employed persons, continued expanding by **0.2 per cent (+25.1 thousand persons)** to **12.61 million persons** (February 2025: 12.59 million persons). Likewise, the number of **own-account workers** also rose by **0.6 per cent (+18.4 thousand persons)** to **3.15 million persons** (February 2025: 3.13 million persons).
- The number of **unemployed** continued to decrease during the month, with a reduction of **3.2 thousand persons (-0.6%)** to **529.6 thousand persons** (February 2025: 532.8 thousand persons). The **unemployment rate** in March remained at **3.1 per cent** as in the previous month.
- The number of **labour force** in March 2025 maintained its positive trend, rose by **0.2 per cent (+41.2 thousand persons)** to reach **17.31 million persons** (February 2025: 17.27 million persons). March's **labour force participation rate (LFPR)** was unchanged at **70.7 per cent**, as in February 2025.
- In March 2025, the number of persons **outside the labour force** increased by **0.1 per cent (+5.0 thousand persons)** to **7.16 million persons** (February 2025: 7.15 million persons). **Housework/ family responsibilities** comprised the largest share of the total outside labour force at **43.7 per cent**, while **schooling/ training** reasons ranked second at **41.7 per cent**.
- Malaysia's economic performance during the month shows strong growth, driven by several key factors such as increased investment, labour market stability, and empowering the export sector. Mirrored by this situation, the country's labour force also portrays continued developments with a low unemployment rate while the number of employed continues to increase, driven by growth in the Services and Manufacturing sectors. In addition, higher labour force participation rates also reflect confidence in the labour market. Therefore, in the upcoming months, the Malaysian labour market is anticipated to continue to expand due to strong labour demand, coupled with several strategic initiatives taken to ensure the stability of the labour market by 2025. Thus, in line with this, the country's labour market condition is seen to continue to be optimistic and able to expand briskly and resilient in encountering the worldwide economic uncertainties.

1 INTRODUCTION

MALAYSIA'S LABOUR FORCE CONTINUED ITS UPWARD MOMENTUM IN MARCH 2025, ALBEIT GLOBAL CHALLENGES

Malaysia's economy in March 2025 remained stable despite global trade tensions and economic headwinds. Strong domestic demand, increasing minimum wages, and higher government salaries supported private consumption growth¹. Additionally, robust private investment, backed by various national policy initiatives and record-high in approved investments, has helped sustain employment. In addition, Malaysia's economic stability also facilitated maintaining a steady labour market during the month. The labour market showed resilience with an increasing number of employed while the unemployed further decreased.

Apart from that, Muslims worldwide, including Malaysians, observed the holy month of Ramadan in March 2025. During this time, both Muslims and non-Muslim in Malaysia actively engaged in business activities to generate more income to support their living expenses. The widespread operation of Ramadan Bazaars provides significant opportunities for Micro, Small, and Medium Enterprises (MSMEs), particularly for both new and existing businesses to begin their business. Furthermore, the celebration of Eid al-Fitr in Malaysia also contributed to sustained economic growth and further enhanced the labour market. Increased demand in the Food and beverage (F&B) sub-sector, particularly for bakery products, pastries, cookies, and traditional Malay foods, stimulated business activities. Many new and existing entrepreneurs capitalised on this opportunity by introducing innovative, high-quality products and expanding their presence through online platforms and *Aidilfitri* Bazaars. These developments, particularly among MSMEs, fostered a vigorous economic environment. As a result, Malaysia's labour market remained vibrant in March 2025, and continued its upward momentum, albeit global challenges.

As for the Leading Index (LI) in February 2025, it recorded a marginal decline of 0.004 per cent to 112.4 points as against the same month of the preceding year. On the same note, the LI's monthly performance recorded a decline of 0.2 per cent in February 2025, compared to last month. Looking at the smoothed long-term trend in February 2025, the LI remained below 100.0 points. Nevertheless, Malaysia's economy is expected to remain moderate, supported by strong economic fundamentals despite facing global uncertainties, leading to complex spillover effects. Meanwhile, the monthly external trade indicators for exports and imports rebounded in March 2025, with a growth of 16.1 per cent (February 2025: -3.7%) and 6.6 per cent (February 2025: -11.4%), respectively.

2 EMPLOYED PERSONS

The number of employed persons further increased in March 2025

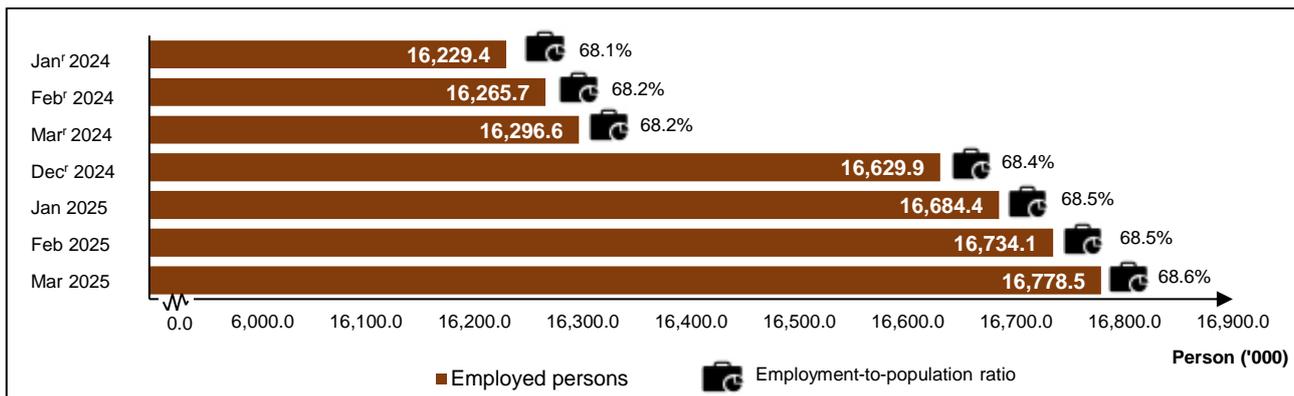

In March 2025, the number of **employed persons** further increased, with a rise of **0.3 per cent (+44.5 thousand persons)** to **16.78 million persons** compared to 16.73 million persons in February 2025. Seasonally adjusted data reflected a 0.2 per cent increase in employed persons. Annually, the employed persons went up by 3.0 per cent, equivalent to 481.9 thousand persons (March¹ 2024: 16.30 million persons).

¹ <https://www.nst.com.my/business/economy/2025/03/1186785/malaysias-labour-market-remains-stable-amid-global-trade-tensions>

Most of the employed persons were primarily concentrated in the Services sector, particularly in Accommodation and food & beverage services; Information & communication; and Professional, scientific & technical activities. An increasing number of employed persons has also been in the Manufacturing, Construction, Agriculture, and Mining & quarrying sectors.

The **employment-to-population ratio**, which indicates the ability of an economy to create employment, went up by **0.1 percentage points** to **68.6 per cent** in March 2025 (February 2025: 68.5%). Compared to March^r 2024, the ratio edged up by **0.4 percentage points** from 68.2 per cent [Chart 1].

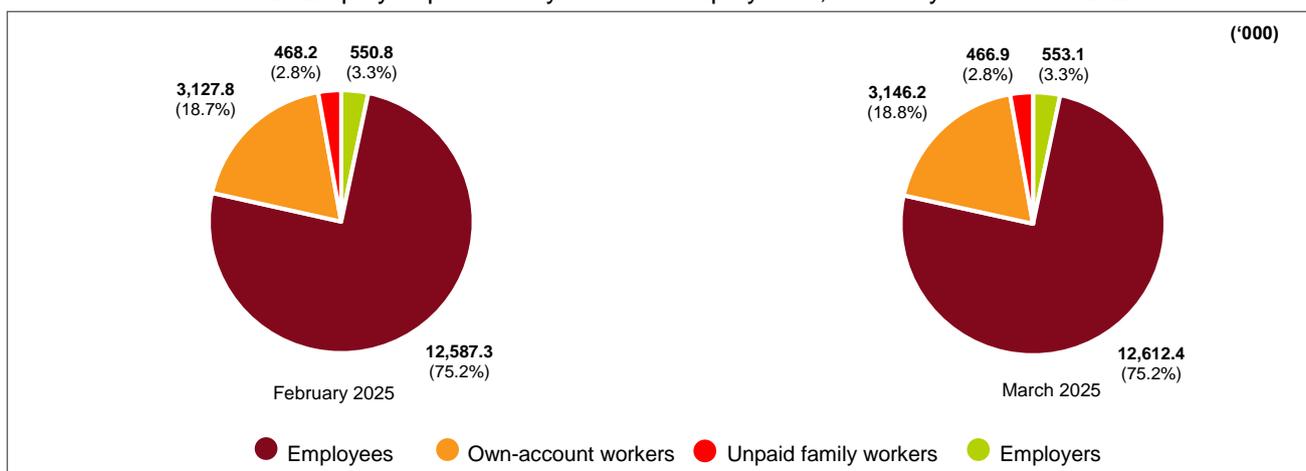

Chart 1: Employed persons and employment-to-population ratio, January^r - March^r, December^r 2024, and January - March 2025

Note: ^r Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

In March 2025, the **employees'** category accounted for **75.2 per cent** of the total employed persons, continued expanding by **0.2 per cent (+25.1 thousand persons)** to **12.61 million persons** (February 2025: 12.59 million persons). Likewise, the number of **own-account workers** also rose by **0.6 per cent (+18.4 thousand persons)** to **3.15 million persons** (February 2025: 3.13 million persons). This category primarily consisted of daily wage earners operating in small businesses, including retailers, hawkers, market and stall vendors, as well as smallholders [Chart 2].

Chart 2: Employed persons by status in employment, February and March 2025

During the month, the number of **employed persons who were temporarily not working** increased by **5.8 per cent (+4.9 thousand persons)** to **90.3 thousand persons** in March 2025, compared to 85.4 thousand persons in February 2025. On an annual basis, this number rose by 3.7 per cent (+3.2 thousand persons) from 87.1 thousand persons in March^r 2024. This group comprises individuals

who were temporarily unable to work but were not classified as unemployed, as they had jobs to return to.

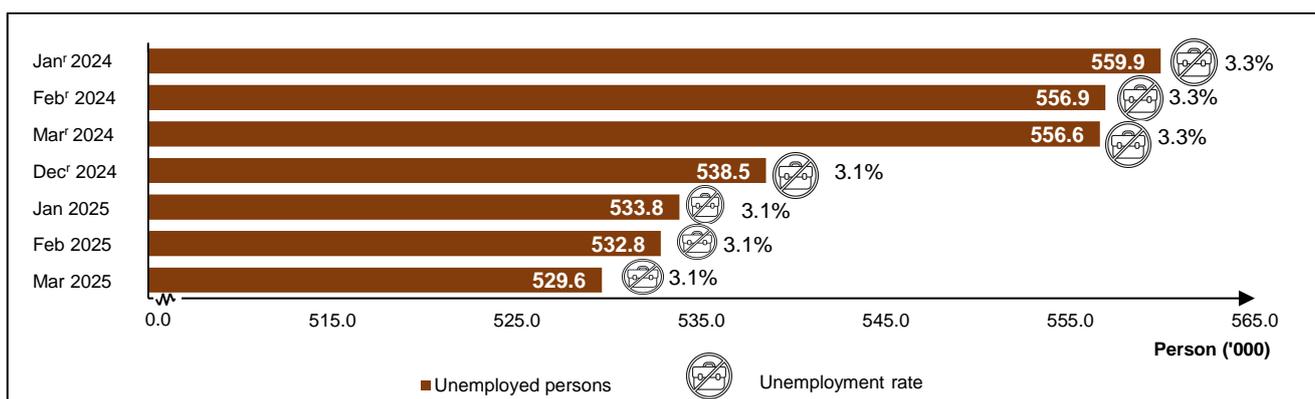

3 UNEMPLOYMENT

The unemployment rate remained at 3.1 per cent in March 2025

The number of **unemployed** continued to decrease during the month, with a reduction of **3.2 thousand persons (-0.6%)** to **529.6 thousand persons** (February 2025: 532.8 thousand persons). The **unemployment rate** in March remained at **3.1 per cent** as in the previous month. In seasonally adjusted terms, the number of unemployed persons went down by 0.8 per cent, with an unemployment rate of 3.0 per cent.

On a yearly basis, the number of unemployed continued to fall by 4.9 per cent (-27.0 thousand persons) compared to 556.6 thousand persons recorded in March^r 2024. Accordingly, the unemployment rate declined by 0.2 percentage points as against 3.3 per cent in the same month of the previous year [Chart 3].

Chart 3: Unemployment, January^r - March^r, December^r 2024, and January - March 2025

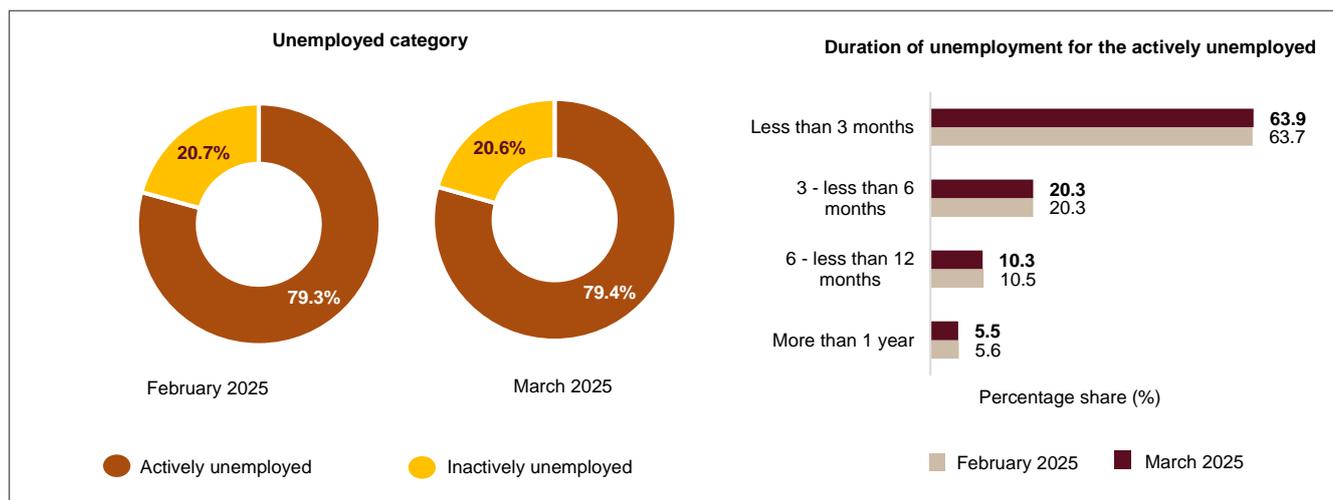

Note: ^r Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

In March 2025, **79.4 per cent** of the total unemployed persons were the **actively unemployed** or those who were available for work and were actively seeking jobs. This group decreased by **0.5 per cent (-2.0 thousand persons)** to **420.7 thousand persons** (February 2025: 422.7 thousand persons). By duration of unemployment for the actively unemployed, those who were **unemployed for less than three months** accounted for **63.9 per cent**, whereas those who were **unemployed for more than a year²** were at **5.5 per cent** [Chart 4].

Similarly, those who believed that no jobs were available or the **inactively unemployed** went down by **1.1 per cent (-1.2 thousand persons)** to record **108.9 thousand persons** compared to 110.1 thousand persons as of February 2025.

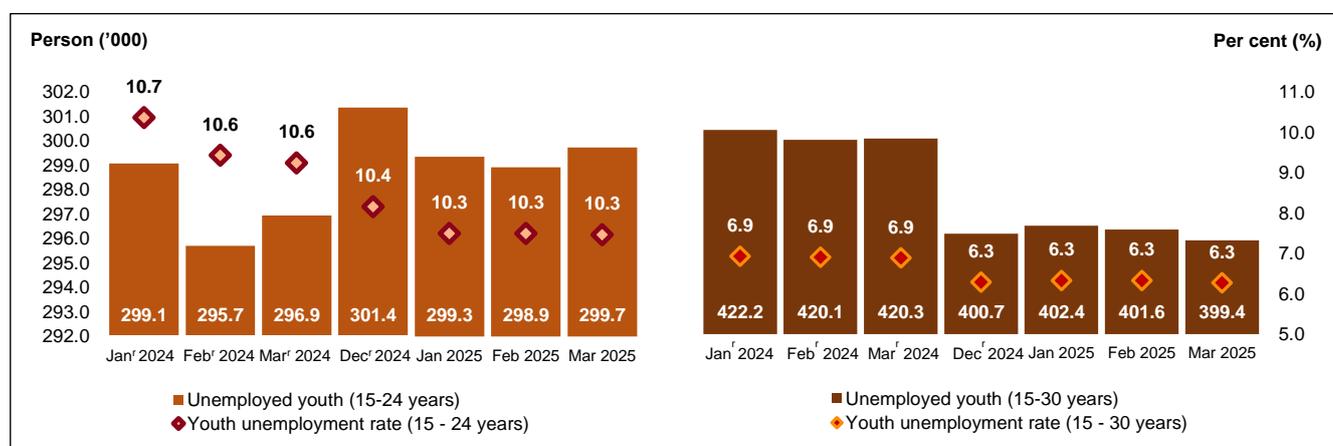

² Referring to a person who has been unemployed for one year or longer (Source: KILM: Long-term unemployment) https://www.ilo.org/wcmsp5/groups/public/---dgreports/---stat/documents/publication/wcms_422451.pdf

Chart 4: Unemployed category and duration of unemployment for the actively unemployed, February and March 2025

During the month, the unemployment rate for youth aged **15 to 24 years** remained at **10.3 per cent**, with **299.7 thousand unemployed youths** (February 2025: 298.9 thousand persons). In the meantime, the unemployment rate among youth aged **15 to 30 years** also stood at **6.3 per cent**, registering the number of unemployed youths at **399.4 thousand persons** as against 401.6 thousand unemployed youths recorded in February 2025 [Chart 5].

Chart 5: The number of unemployed persons and unemployment rate by selected age groups, January^f - March^f, December^f 2024, and January - March 2025

Note: ^f Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

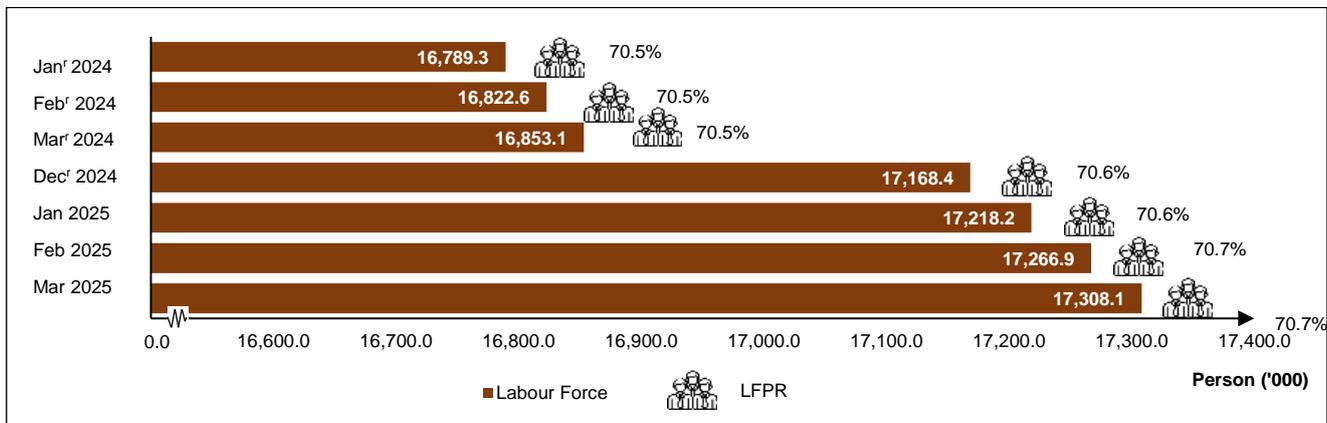

4 LABOUR FORCE

March's LFPR was unchanged at 70.7 per cent

The **labour force** in March 2025 maintained its positive trend, rose by **0.2 per cent (+41.2 thousand persons)** to reach **17.31 million persons** (February 2025: 17.27 million persons). March's **labour force participation rate (LFPR)** was unchanged at **70.7 per cent**, as in February 2025. Based on seasonally adjusted data, the labour force posted a rise of 0.3 per cent, with a higher LFPR of 70.8 per cent.

On a year-on-year basis, the labour force improved by 2.7 per cent, equivalent to an increase of 455.0 thousand persons, compared to the same month of the previous year (March^r 2024: 16.85 million persons). Subsequently, the LFPR rose by 0.2 percentage points from 70.5 per cent recorded in March^r 2024 [Chart 6].

Chart 6: Labour force and LFPR, January^r - March^r, December^r 2024, and January - March 2025

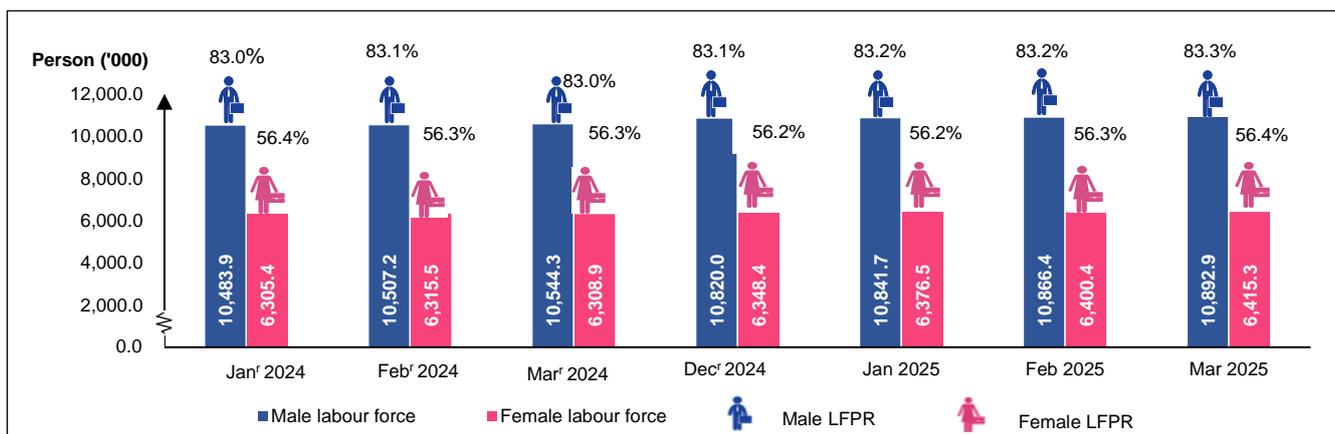

Note: ^r Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

In March 2025, both male and female labour forces were on an increasing trend. The **male labour force** ascended to **10.89 million persons** from 10.87 million persons in February 2025, while the **female labour force** rose to **6.42 million persons** compared to 6.40 million persons in the previous month. As for the LFPR, both **male and female LFPR** increased by **0.1 percentage points to 83.3 per cent** (February 2025: 83.2%) and **56.4 per cent** (February 2025: 56.3%), respectively.

Year-on-year, the male labour force rose by 3.3 per cent from 10.54 million persons in March^r 2024. At the same time, the female labour force recorded an increase of 1.7 per cent compared to 6.31 million persons in March^r last year. Consequently, the male LFPR rose by 0.3 percentage points from 83.0 per cent, while the female LFPR recorded a slight rise of 0.1 percentage points from 56.3 per cent, as observed in March^r 2024 [Chart 7].

Chart 7: Labour force and LFPR by sex, January^r - March^r, December^r 2024, and January - March 2025

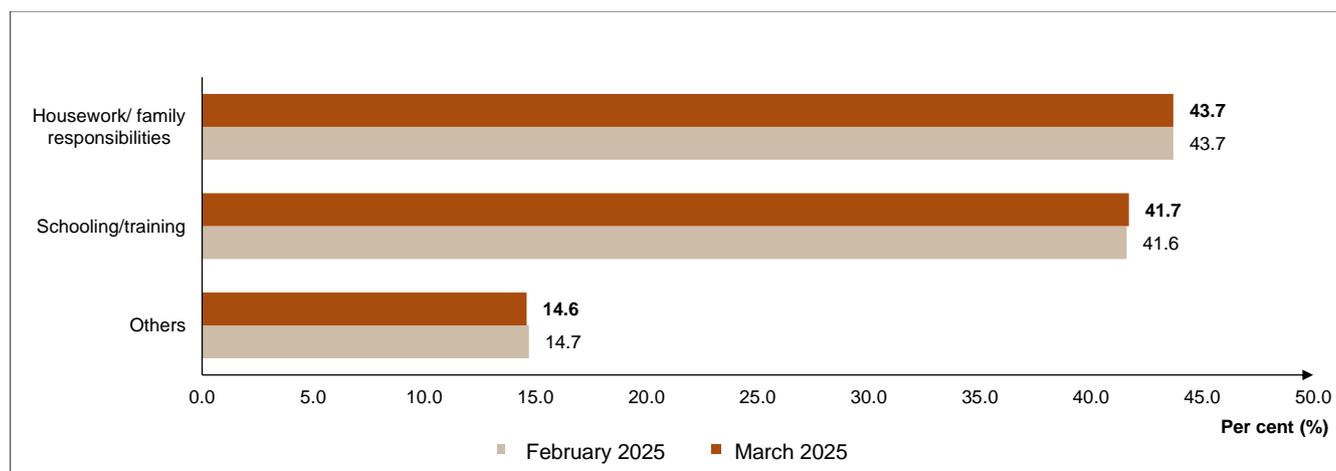

Note: ^r Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

5 OUTSIDE LABOUR FORCE

Housework/ family responsibilities comprised the largest share of the outside labour force

In March 2025, the number of persons **outside the labour force** increased by **0.1 per cent (+5.0 thousand persons)** to **7.16 million persons** (February 2025: 7.15 million persons). Compared to the same month of the previous year, the number of outside labour force rose by 1.5 per cent (+104.1 thousand persons) from 7.05 million persons. **Housework/ family responsibilities** comprised the largest share of the total outside labour force at **43.7 per cent**, while **schooling/ training** reasons ranked second at **41.7 per cent [Chart 8]**.

Chart 8: Share of outside labour force by reasons for not seeking work, February and March 2025

6 LOOKING AHEAD

Tracing Malaysia's economic performance during the month shows strong growth, driven by several key factors such as increased investment, labour market stability, and empowering the export sector. The advanced Gross Domestic Product (GDP) estimates which refer to the initial two months of the quarterly period, the Malaysian economy grew 4.4 per cent in the first quarter of 2025, slower than the 5.0 per cent growth in the previous quarter, but it still shows the country's economic resilience in facing global challenges³.

These improvements are contributed by an increase in the Services sector led by Wholesale & retail trade, Transportation & storage, as well as Information & communications subsectors, the Manufacturing sector driven by export-oriented industries and the Construction sector supported by special trade and residential construction activities. In addition, seasonal festivals such as Chinese New Year, Ramadan preparations, and the reopening of the school year also help in maintaining the economic activity, as well as stable labour market positions.

The performance of the country's labour force also portrays continued developments with a low unemployment rate while the number of employed continues to increase, driven by growth in the Services and Manufacturing sectors. In addition, higher labour force participation rates also reflect confidence in the labour market.

³ <https://www.bharian.com.my/bisnes/lain-lain/2025/04/1386034/ekonomi-malaysia-dianggar-berkembang-44-peratus-pada-suku-pertama>

Therefore, in the upcoming months, the Malaysian labour market is anticipated to continue to expand due to strong labour demand, coupled with a minimum wage increase to RM1,700 as well as public sector salary adjustments. This is expected to increase the purchasing power of the people and support overall economic growth. In addition, the government has taken several strategic initiatives to ensure the stability of the labour market by 2025, including an allocation of RM25.3 billion to the education and vocational training sectors to enhance the marketability of graduates and measures such as more strategic sustainable retirement schemes and minimum wage management introduced to enhance the well-being of workers⁴.

The next step is to implement diversification of the job opportunities by strengthening trade relations with other countries to open up new job opportunities for those affected and provide incentives to employers to hire new workers and maintain the existing workforce, which is expected to support the Malaysian labour market. Thus, in line with this, the country's labour market condition is seen to continue to be optimistic and able to expand briskly and resiliently in encountering the worldwide economic uncertainties.

Notes:

1. Labour Force Survey indicators for 2019 and previously still using the estimated population data of the Population and Housing Census of Malaysia 2010

2. ¹For 1982 - 2000, category of occupation are classified according to the "Dictionary of Occupational Classification, 1980" as follows:

- 1: Professional, technical and related workers
- 2: Administrative and managerial workers
- 3: Clerical and related workers
- 4: Sales workers
- 5: Service workers
- 6: Agricultural, animal husbandry and forestry workers, fishermen and hunters
- 7: Production and related workers, transport equipment operators and labourers

3. ²For 2001 - 2010, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 1998" as follows:

- 1: Legislators, senior officials and managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical workers
- 5: Service workers and shop and market sales workers
- 6: Skilled agricultural and fishery workers
- 7: Craft and related trade workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

4. ³For 2011 - 2015, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2008" as follows:

- 1: Managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical support workers
- 5: Service workers and shop and market sales workers
- 6: Skilled agricultural, forestry and fishery workers
- 7: Craft and related trades workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

5. ⁴For 2016 - 2021, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2013" as follows:

- 1: Managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical workers
- 5: Service and sales workers
- 6: Skilled agricultural, forestry, livestock and fishery workers
- 7: Craft and related trades workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

6. ⁵For 2022 onwards, categories of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2020"

7. ^f Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

Notes:

1. Labour Force Survey indicators for 2019 and previously still using the estimated population data of the the Population and Housing Census of Malaysia 2010

2. ¹For 1982 - 2000, industry was classified according to the "Malaysia Industrial Classification, (Updated) 1972" as follows:

A: Agriculture, forestry and fishing

B: Mining and quarrying

C: Manufacturing

D: Electricity, gas and water

E: Construction

F: Wholesale and retail trade, restaurants and hotels

G: Transport, storage and communications

H: Finance, insurance, real estate and business services

I: Community, social and personal services

3. ²For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

A: Agriculture, hunting and forestry

B: Fishing

C: Mining and quarrying

D: Manufacturing

E: Electricity, gas and water supply

F: Construction

G: Wholesale and retail trade; repair of motor vehicles, motorcycles and personal and household goods

H: Hotels and restaurants

I: Transport, storage and communications

J: Financial intermediation

K: Real estate, renting and business activities

L: Public administration and defence; compulsory social security

M: Education

N: Health and social work

O: Other community, social and personal service activities

P: Private households with employed persons

4. ³For 2010 - 2022, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:

A: Agriculture, forestry and fishing

B: Mining and quarrying

C: Manufacturing

D: Electricity, gas, steam and air conditioning supply

E: Water supply; sewerage, waste management and remediation activities

F: Construction

G: Wholesale and retail trade, repair of motor vehicles and motorcycles

H: Transportation and storage

I: Accommodation and food service activities

J: Information and communication

K: Financial and insurance/takaful activities

L: Real estate activities

M: Professional, scientific and technical activities

N: Administrative and support service activities

O: Public administration and defence; compulsory social security

P: Education

Q: Human health and social work activities

R: Arts, entertainment and recreation

S: Others service activities

T: Activities of households as employers

5. ⁴For year 2011-2019 & 2021-2023, total includes 'Activities of extraterritorial organizations and bodies'6. ^fRevision based on the current population estimates from the Population and Housing Census of Malaysia 2020

Notes:

1. Labour Force Survey indicators for 2019 and previously still using the estimated population data of the the Population and Housing Census of Malaysia 2010

2. ¹For 1982 - 2000, industry was classified according to the "Malaysia Industrial Classification, (Updated) 1972" as follows:

- A: Agriculture, forestry, livestock and fishing
- B: Mining and quarrying
- C: Manufacturing
- D: Electricity, gas and water
- E: Construction
- F: Wholesale and retail trade, restaurants and hotels
- G: Transport, storage and communications
- H: Finance, insurance, real estate and business services
- I: Community, social and personal services

3. ²For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

- A: Agriculture, hunting and forestry
- B: Fishing
- C: Mining and quarrying
- D: Manufacturing
- E: Electricity, gas and water supply
- F: Construction
- G: Wholesale and retail trade; repair of motor vehicles, motorcycles and personal and household goods
- H: Hotels and restaurants
- I: Transport, storage and communications
- J: Financial intermediation
- K: Real estate, renting and business activities
- L: Public administration and defence; compulsory social security
- M: Education
- N: Health and social work
- O: Other community, social and personal service activities
- P: Private households with employed persons

4. ³For 2010 - 2022, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:

- A: Agriculture, forestry and fishing
- B: Mining and quarrying
- C: Manufacturing
- D: Electricity, gas, steam and air conditioning supply
- E: Water supply; sewerage, waste management and remediation activities
- F: Construction
- G: Wholesale and retail trade, repair of motor vehicles and motorcycles
- H: Transportation and storage
- I: Accommodation and food service activities
- J: Information and communication
- K: Financial and insurance/takaful activities
- L: Real estate activities
- M: Professional, scientific and technical activities
- N: Administrative and support service activities
- O: Public administration and defence; compulsory social security
- P: Education
- Q: Human health and social work activities
- R: Arts, entertainment and recreation
- S: Others service activities
- T: Activities of households as employers

5. ⁴For year 2011-2019 & 2021-2023, total includes 'Activities of extraterritorial organizations and bodies'6. ^f Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020
