RINGKASAN PENEMUAN

1. PENGENALAN

Pada tahun 2022, ekonomi global masih dalam proses pemulihan daripada kesan pandemik COVID-19. Namun begitu, usaha pemulihan tersebut berdepan pelbagai cabaran akibat persekitaran global yang semakin mencabar, termasuk peningkatan kadar inflasi, kadar faedah yang lebih tinggi, pengurangan pelaburan serta ketegangan geopolitik berikutan krisis antara Rusia dan Ukraine. Di samping itu, dasar toleransi sifar China dalam menangani COVID-19 turut menyumbang kepada ketidaktentuan ekonomi global. Biarpun berdepan dengan pertumbuhan global yang perlahan, ekonomi Malaysia pada tahun 2022 tetap mencatatkan prestasi yang memberangsangkan iaitu 9.0 peratus, yang mana pemulihan tersebut didorong oleh permintaan domestik yang kukuh, prestasi eksport yang menggalakkan, dan dasar kerajaan yang menyokong kepada situasi tersebut.

Tahun 2022 juga merupakan tahun yang penting dalam memacu hala tuju pembangunan belia, khususnya selepas negara dan dunia dilanda pandemik yang membawa pelbagai cabaran terhadap golongan ini. Namun, di sebalik segala rintangan, wujud juga peluang untuk golongan belia menyesuaikan diri dan melakar inovasi ke arah norma baharu kehidupan. Evolusi yang berlaku turut memperlihatkan keperluan Kerajaan untuk terus memainkan peranan yang proaktif dalam memastikan golongan belia kekal relevan dalam arus pembangunan negara. Sokongan berterusan dan pelaksanaan inisiatif strategik amat penting bagi membantu golongan ini menyesuaikan diri dengan realiti pasca-pandemik serta menyumbang secara signifikan kepada kemajuan negara. Pelbagai inisiatif Kerajaan dirangka dalam memastikan pelaksanaan dasar dan program ke arah pembangunan sosioekonomi negara yang mampan termasuk juga dalam pembangunan golongan belia yang terdiri lebih daripada seperempat daripada populasi penduduk Malaysia. Oleh itu, Kerajaan berusaha agar belia diberi akses pekerjaan sewajarnya dan menyediakan insentif antaranya penggajian di bawah PERKESO kepada majikan yang menggaji belia berumur 18 hingga 30 tahun yang menganggur lebih daripada tiga bulan. Selain itu, insentif ini turut dipanjangkan kepada majikan yang mengambil graduan TVET.

Forum Ekonomi Belia (YEF) 2022, anjuran Persatuan Alumni Felo Perdana, telah berlangsung pada 29 Oktober 2022 di Sasana Kijang, Bank Negara Malaysia. Acara ini menjadi platform penting bagi anak muda Malaysia untuk melibatkan diri dengan pemimpin negara, penggubal dasar dan pakar industri, memupuk perbincangan mengenai trajektori ekonomi Malaysia dan peranan penting belia dalam membentuk masa depannya. Forum Ekonomi Belia (YEF) 2022 berfungsi sebagai platform penting untuk pemimpin muda, penggubal dasar, usahawan dan pembuat perubahan untuk melibatkan diri dalam wacana bermakna mengenai cabaran dan peluang ekonomi dalam dunia pasca pandemik. Dengan tema yang tertumpu pada transformasi digital, pembangunan mampan, pemerksaan belia, dan daya tahan ekonomi, forum berkenaan memberikan peserta cerapan, rangkaian dan inspirasi untuk memacu perubahan positif dalam komuniti belia pada masa hadapan.

MAIN FINDINGS

1. INTRODUCTION

In 2022, the global economy is still in the process of recovering from the impact of the COVID-19 pandemic. However, recovery efforts were hindered by a range of emerging challenges including rising inflation rates, higher interest rates, reduced investment and geopolitical tensions following the crisis between Russia and Ukraine. In addition, China's zero-tolerance policy in dealing with COVID-19 also contributed to global economic uncertainty. Despite facing slow global growth, the Malaysian economy in 2022 still recorded an encouraging performance of 9.0 per cent, with the recovery driven by strong domestic demand, encouraging export performance, and supportive government policies.

The year 2022 showed a pivotal period in shaping the direction of youth development, especially after the country and the world were hit by the pandemic that brought various challenges to this group. However, despite all the obstacles, there are also opportunities for youth to adapt and innovate towards the new norm of life. The evolution that has occurred also shows the importance of the Government's continued proactive role in ensuring that the youth remain relevant in the national development stream. Continuous support and implementation of strategic initiatives are very important to help this group adapt to the post-pandemic reality and contribute significantly to the progress of the country. Various Government initiatives in ensuring the implementation of policies and programs towards sustainable socio-economic development of the country include the development of the youth group, which comprises more than a quarter of the Malaysian population. Therefore, in working to ensure that youth are given appropriate access to employment, the Government provides incentives, including employment under SOCSO to employers who employ youth aged 18 to 30 who have been unemployed for more than three months. In addition, this incentive has also been extended to employers who hire TVET graduates.

In addition, a Youth Economic Forum (YEF) 2022, organised by the Perdana Fellows Alumni Association held on 29 October 2022 at Sasana Kijang, Bank Negara Malaysia. The event served as a key platform for young Malaysians to engage with national leaders, policymakers and industry experts, fostering discussions on the trajectory of Malaysia's economy and the critical role of youth in shaping its future. The Youth Economic Forum (YEF) 2022 served as a key platform for young leaders, policymakers, entrepreneurs and changemakers to engage in meaningful discourse on economic challenges and opportunities in a post-pandemic world. With themes focused on digital transformation, sustainable development, youth empowerment and economic resilience, the forum provided participants with insights, networks and inspiration to drive positive changes in the youth community in the future.

NOTA TEKNIKAL

1. SKOP DAN LIPUTAN

Penerbitan ini menggunakan data dari Banci Ekonomi 2023 (tahun rujukan 2022). Banci ini mengumpul maklumat daripada pertubuhan berdaftar dalam sektor Pertanian, Perlombongan & pengkuarian, Pembuatan, Pembinaan dan Perkhidmatan. Klasifikasi industri merujuk kepada Piawaian Klasifikasi Industri Malaysia (MSIC) 2008 Versi 1.0 yang selaras dengan *International Standard Industrial Classification of All Economic Activities* (ISIC), Rev. 4, United Nations. Liputan bagi keseluruhan sektor merangkumi 1,174 kategori industri seperti yang ditunjukkan pada Jadual 1.

Jadual 1: Bilangan industri mengikut sektor

SEKTOR	BILANGAN INDUSTRI
PERTANIAN*	142
PERLOMBONGAN & PENGKUARIAN	56
PEMBUATAN	259
PEMBINAAN	72
PERKHIDMATAN	645

Nota: (*) Usahawan dalam sektor Pertanian yang hanya berdaftar dengan agensi -agensi kerajaan yang berkaitan bagi maksud menerima bantuan TIDAK diliputi kecuali pengusaha kelapa sawit.

2. KUASA PERUNDANGAN

Banci Ekonomi 2023 dilaksanakan di bawah Akta Perangkaan 1965 (Disemak 1989). Di bawah Seksyen 5 Akta ini, mana-mana pertubuhan yang beroperasi di Malaysia dikehendaki memberikan maklumat sebenar atau anggaran terbaik kepada Jabatan. Mengikut Akta ini, kandungan soal selidik adalah sulit dan hanya angka agregat diterbitkan.

NOTA TEKNIKAL

3. SUMBER RANGKA STATISTIK

Sumber utama rangka statistik pertubuhan adalah daripada Malaysia Statistical Business Register (MSBR). MSBR adalah senarai pertubuhan/ perusahaan yang beroperasi di Malaysia yang merangkumi Daftar Syarikat (ROC), Daftar Perniagaan (ROB) dan Perkongsian Liabiliti Terhad (LLP) yang berdaftar dengan Suruhanjaya Syarikat Malaysia (SSM) serta pertubuhan yang berdaftar dengan Pihak Berkuasa Tempatan (PBT) dan badan profesional. Senarai di MBSR dikemaskini secara berkala berdasarkan survei dan bancian yang dijalankan oleh Jabatan Perangkaan Malaysia (DOSM) dan sumber data pentadbiran daripada pelbagai agensi. Sumber utama data pentadbiran adalah daripada SSM.

Selain itu, DOSM juga bekerjasama untuk mendapatkan maklumat terkini daripada agensi lain seperti Kumpulan Wang Simpanan Pekerja (KWSP), Jabatan Kastam Diraja Malaysia, Lembaga Hasil Dalam Negeri (LHDN), Pertubuhan Keselamatan Sosial (PERKESO), PBT dan badan profesional. Rangka dikemaskini untuk mengambil kira pertubuhan baru dan sebarang perubahan yang berlaku kepada pertubuhan tersebut seperti tutup, tidak beroperasi, perubahan jenis aktiviti dan lokasi/ alamat pos untuk memastikan maklumat yang terdapat dalam rangka adalah yang paling terkini.

4. JENIS AKTIVITI PERNIAGAAN

Jenis aktiviti perniagaan merujuk kepada aktiviti utama dan sekunder. Aktiviti utama merujuk kepada aktiviti yang mana pertubuhan menumpukan sebahagian besar sumbernya atau memberi sumbangan besar dari segi pendapatan. Aktiviti sekunder didefinisikan sebagai aktiviti sampingan kepada aktiviti utama. Klasifikasi industri bagi pertubuhan adalah berasaskan kepada aktiviti utama dan mengikut Piawaian Klasifikasi Industri Malaysia (MSIC) 2008 Versi 1.0 yang diselaraskan dengan International Standard Industrial Classification of All Economic Activities (ISIC), Rev. 4, United Nations dan pengubahsuaian mengikut keperluan tempatan.

5. KONSEP DAN DEFINISI

Klasifikasi industri dikategorikan kepada lima sektor utama iaitu Pertanian, Perlombongan & pengkuarian, Pembuatan, Pembinaan dan Perkhidmatan. Definisi sektor adalah seperti berikut:

NOTA TEKNIKAL

5.1. PERTANIAN

Pertanian merangkumi aktiviti penanaman, pemeliharaan dan penternakan haiwan dan pengeluaran produk haiwan, penebangan kayu balak dan tanaman lain serta perikanan tangkapan dan akuakultur termasuk penggunaan sumber semulajadi tumbuh-tumbuhan dan haiwan. Terdapat empat subsektor iaitu tanaman, ternakan, perhutanan & pembalakan dan perikanan.

5.1.1 Tanaman merujuk kepada penanaman dan pengeluaran produk tanaman termasuk pertanian organik. Tanaman juga meliputi penanaman tanaman tidak kekal dan kekal merangkumi penanaman tumbuh-tumbuhan untuk tujuan pengeluaran benih.

5.1.2 Ternakan merujuk kepada binatang atau unggas yang dipelihara untuk tujuan komersil dan pembiakbakaan. Pengeluaran ternakan termasuk penternakan (ladang) dan pembiakan semua haiwan serta pengeluaran daripada hasilan ternakan seperti telur, susu, madu dan sebagainya.

5.1.3 Perhutanan & pembalakan termasuk pengeluaran kayu balak untuk industri berasaskan kayu, meliputi pengestrakan dan pengumpulan produk hutan bukan kayu yang tumbuh liar. Selain pengeluaran kayu balak, aktiviti perhutanan yang menghasilkan produk melalui proses minima seperti kayu api, kayu arang, reja kayu dan kayu balak yang digunakan dalam bentuk yang belum diproses. Aktiviti ini boleh dijalankan dalam hutan asli dan ladang hutan. Ia juga termasuk sebahagian daripada aktiviti operasi perhutanan berdasarkan bayaran atau secara kontrak; dan

5.1.4 Perikanan termasuk perikanan tangkapan dan akuakultur meliputi penggunaan sumber perikanan daripada laut, air payau atau air tawar dengan tujuan menangkap dan mengumpul ikan, krustasia, moluska dan organisma & produk laut lain. Akuakultur ialah proses pengeluaran yang melibatkan pengkulturan (termasuk tuaian) organisma aquatik menggunakan teknik yang direka bentuk untuk meningkatkan pengeluaran organisma tersebut melebihi kapasiti persekitaran semula jadi.

MSBR is a list of organisations/ enterprises operating in Malaysia that includes the Register of Companies (ROC), Register of Business (ROB) and Limited Liability Partnership (LLP) registered with the Companies Commission of Malaysia (CCM) as well as organisations registered with Local Authorities (LA) and professional bodies. The list in MSBR is updated regularly based on surveys and censuses conducted by the Department of Statistics Malaysia (DOSM) and administrative data sources from various agencies. The main source of administrative data is from CCM.

In addition, DOSM also works together to obtain the latest information from other agencies such as the Employees' Provident Fund (EPF), the Royal Malaysian Customs Department, the Inland Revenue Board (IRB), Social Security Organization (SOCSO), LA and professional bodies. The frame is updated to take into account new establishments and to record any changes in the status of the establishments such as closed down, not in operation, change in activity and location/ correspondence address to ensure the frame is at the most current status.

6. CENSUS YEAR

Census year refers to the year in which a census was conducted.

7. REFERENCE YEAR

The reference year of the census was the calendar year 2022. Establishments whose accounting year differed from calendar year were requested to report according to the accounting year or financial year covering at least six (6) months in the reference year.

8. METHOD OF COLLECTION

This census was generally conducted through three (3) methods of data collection, namely:

8.1. Online method through the e-BE portal

This method targets respondents who have used this method for previous routine surveys.

8.2. Data collection method via e-mail, post, fax and telephone

This method targets respondents who have used this method for previous routine surveys. Respondents were given a period of one month to complete and return the questionnaire to the DOSM.

8.3. Face-to-face data collection method

Field work operation is carried out to get feedback from establishments that have not yet given answers from the two methods above and this method also targets establishments that have never been involved in a routine survey the DOSM.

9. REPORTING UNIT

The reporting unit used in the Economic Census 2023 was the establishment. The establishment is defined as “an economic unit engaged in one activity, under a single legal entity and operating in a single physical location”. Each establishment was assigned an industry classification based on its principal activity. In the case of a multi-activity entity, units engaged in separate activities in the same location constituted distinct establishments.

TECHNICAL NOTES

Each branch of a multi-branch organization at a different location was conceptually treated as a different establishment. The establishment was requested to give separate returns for each activity in terms of value. However, if in practice, the accounts were centrally kept such that it was not possible to obtain separate data for each individual unit or branch. The entity or enterprise was treated as a single reporting unit and allowed to submit a consolidated questionnaire covering all the units or branches.

10. OWNERSHIP

The ownership of an establishment is classified by the residential status of the owner (s) of the majority (more than 50%) of the paid-up capital and not by their citizenship status. In instances where each party (Malaysian Resident and Non- Malaysian Resident) held equal shares in the business, the establishments were classified as "Joint Ownership".

A Malaysian Resident is any individual, company or other organization ordinarily domiciled in Malaysia for a period of at least one year. Malaysian registered branches and incorporated subsidiaries of foreign based/origins are also regarded as Residents.

A Non-Malaysian Resident is any individual, company or other organization ordinarily domiciled in a country other than Malaysia. Foreign branches and/or subsidiaries abroad owned by Malaysian Residents are also regarded as Non-Residents.

11. YOUTH-OWNED ESTABLISHMENT

The owner's age limit is not less than 18 years old and not more than 30 years old during the census reference year. Refers to a minimum of 51 per cent of the equity held by a youth or youth OR the biggest shareholders are youth and the establishment is managed by a youth OR the Chief Executive Officer or Managing Director is a youth that owns at least 10 per cent of the equity.
