MAY 2025

Announcement

ASEAN-Malaysia 2025 Chairmanship: The Department of Statistics Malaysia (DOSM) will chair the 15th ASEAN Community Statistical System Committee (ACSS15) which aims to strengthen the statistical cooperation towards sustainable regional development.

Malaysia, for the first time, ranked as number one (1) globally in the biennial Open Data Inventory (ODIN) 2024/25 report released by Open Data Watch (ODW), surpassing 198 other countries. This achievement marks a significant leap from its 67th position in the ODIN 2022/23 assessment.

The Government of Malaysia has declared October 20th as National Statistics Day (MyStats Day), with the theme 'Statistics is the Essence of Life'. Meanwhile, the Fourth World Statistics Day will be celebrated on 20th October 2025, with the theme 'Driving Change with Quality Statistics and Data for Everyone'.

OpenDOSM NextGen is a medium that provides data catalogue and visualisations to facilitate users' analysis and can be accessed through <https://open.dosm.gov.my>.

PREFACE

The monthly Labour Force Report, Malaysia, presents statistics of the labour force, employment and unemployment obtained from the Labour Force Survey (LFS) through a household approach. The implementation of the LFS is based on the guidelines and recommendations of the International Labour Organization (ILO) with reference to the Surveys of Economically Active Population, Employment, Unemployment and Underemployment: An ILO Manual on Concepts and Methods.

The labour force statistics are vital input for labour market analysis, policy formulation, as well as planning, implementing, and monitoring programmes, particularly related to human resource development. These statistics also serve as essential references for researchers, economists, academicians, the private sector, and individuals involved in research related to employment and the labour market.

The Labour Force Report for May 2025 describes the labour supply condition based on the current situation. The report also elaborates on the month-on-month changes to examine the immediate effects of recent events. In addition, annual changes from the same month of the previous year are also reported.

The Department of Statistics Malaysia gratefully acknowledges the cooperation and contribution rendered by all parties in making this publication a success. Every piece of feedback and suggestion towards improving future reports is highly appreciated.

DATO' SRI DR. MOHD UZIR MAHIDIN
Chief Statistician Malaysia

GLOSSARY

Actively unemployed	:	Persons who were available for work and were actively looking for a job during the reference week.
Category of skills	:	For reporting purposes, the category of occupation is regrouped into three levels of skills based on the Malaysia Standard Classification of Occupation (MASCO) 2013 as below: <p>Skilled workers:</p> <ol style="list-style-type: none"> 1. Managers; 2. Professionals; and 3. Technicians and associate professionals. <p>Semi-skilled workers:</p> <ol style="list-style-type: none"> 4. Clerical support workers; 5. Services and sales workers; 6. Skilled agricultural, forestry, livestock, and fishery workers; 7. Craft and related trades workers; and 8. Plant and machine operators and assemblers. <p>Low-skilled workers:</p> <ol style="list-style-type: none"> 9. Elementary occupations. <p>Starting in January 2022, the category of occupation is based on the Malaysia Standard Classification of Occupation (MASCO) 2020 with the addition of group 0 - Armed Forces occupations.</p>
Economic activity	:	Classification of industries according to the Malaysia Standard Industrial Classification (MSIC) 2008 version 1.0 into five main sectors: Agriculture, Mining & quarrying, Manufacturing, Construction and Services. In the meantime, Manufacturing and Services are further disaggregated into sub-sectors.
Employed	:	All persons who, at any time during the reference week worked at least one hour for pay, profit or family gain either as an employer, employee, own-account worker or unpaid family worker.
Employee	:	A person who works for a public or private employer and receives regular remuneration in wages, salary, commission, tips or payment in kind.
Employer	:	A person who operates a business, a plantation or other trade and employs one or more workers to help him.
Employment-to-population ratio	:	The proportion of the employed population to working-age population.
Inactively unemployed	:	Did not look for work because they believed no work was available or that they were not qualified; Would have looked for work if they had not been temporarily ill or had it not been for weather conditions; and had looked for work prior to the reference week and were waiting for the result of job applications.

GLOSSARY

Labour force participation rate	:	The ratio of the labour force to the working-age population, expressed as a percentage.
Outside labour force	:	All persons not classified as employed or unemployed are classified as outside the labour force. This category consists of housewives, students (including those going for further studies), retired, disabled persons and those not interested in looking for a job.
Own-account worker	:	A person who operates his own farm, business or trade without employing any paid workers to conduct his farm, trade or business.
Skill-related underemployment	:	Those with tertiary education and working in the semi-skilled and low-skilled categories.
Time-related underemployment	:	A group of people who were employed less than 30 hours per week during the reference week because of the nature of their work or due to insufficient work and were able and willing to accept additional hours of work. Persons who were employed more than 30 hours per week during the reference week are considered to be in full employment.
Unemployed	:	Those who did not work during the reference week were classified into two groups, which are actively and inactively unemployed.
Unemployment rate	:	The proportion of the unemployed population to the total population in the labour force, expressed as a percentage.
Unpaid family worker	:	A person who works without pay or wages on a farm, business or trade operated by another member of the family.

DEPARTMENT OF STATISTICS MALAYSIA

CONCEPTS AND DEFINITIONS

What is Labour Force Survey (LFS)?

Labour Force Survey (LFS) was conducted to collect information on the structure and distribution of labour force, employment and unemployment from the perspective of labour supply.

LFS encompasses both urban and rural areas for all administrative districts within all states in Malaysia using multi-modal data collection approach through the personal interview and a Computer-Assisted Telephone Interview (CATI).

The LFS are conducted based on the standard guidelines and recommendations of the International Labour Organization (ILO).

The survey population comprises persons who live in the private living quarters, hence excludes persons residing in institutions such as hotels, hospitals, hostels, prisons, and workers residing in construction worksite.

The working age for the analysis of LFS in Malaysia refers to household members between the age of 15 to 64 years during the reference week, who are either in the labour force or outside the labour force.

LABOUR FORCE

- The population in the working age group of 15 to 64 years (in completed years at last birthday).
- Either employed or unemployed in the reference week.

EMPLOYED

- Persons who, at any time during the reference week worked at least one hour for pay, profit or family gain (as an employer, employee, own-account worker or unpaid family worker).
- Persons who did not work during the reference week because of illness, injury, bad weather, leave, labour dispute and social or religious reasons but had a job, farm, enterprise or other family enterprise to return to.
- Those on temporary lay-off with pay who would definitely be called back to work.

UNEMPLOYED

- Those who did not work during the reference week but are interested to work and seeking for a job.
- Classified into two groups which are actively and inactively unemployed.

OUTSIDE LABOUR FORCE

- All persons not classified as employed or unemployed.
- Example: housewives, students, retirees, disabled persons and those not interested in looking for job.

UNEMPLOYMENT RATE

- The proportion of the unemployed population to the total population in labour force.
- Percentage of the unemployed population in the labour force.

LABOUR FORCE PARTICIPATION RATE

- The economic activity of a population depends on the demographic characteristics of that population.
- The proportion of the economically active population, hence differs between sub-groups of that population.
- These variations are measured by specific activity rates termed as labour force participation rate.
- Labour force participation rate is defined as the ratio of the labour force to the working age population (15 to 64 years), expressed as a percentage.

SEASONAL ADJUSTMENT

- Time-series data are very useful for economist, policy & decision makers and time-series analysts to identify the important features of economics series such as direction, turning point and consistency between other economic indicators. Sometimes this feature is difficult to observe because of seasonal movements. Thus, if seasonal effect can be removed, the behaviour of the series would be better viewed. The estimation and removal of the seasonal effects is called seasonal adjustment.
- Seasonal adjustment is a process to identify and to remove the regular within-a-year seasonal pattern, which may also include the influences of moving holidays and working/trading days effect in each period. The ultimate objective of the process is to highlight the underlying trends and short-term movements in the series.
- In Malaysia, most of the time series data is affected by seasonal effects. Hence, to eliminate the seasonal effect as well as to seasonally adjust the Malaysian economic time series data, a standard seasonal adjustment package, X-12 ARIMA was used by the Department of Statistics Malaysia.

EXPLANATORY NOTES

Starting with the release of Labour Force Statistics (LFS), January 2025, the principal statistics of the labour force are estimated based on the current population estimates of Malaysia.

The revision of the LFS data series is performed when the most recent Population and Housing Census of Malaysia 2020 data is available. This census data is then used for the revision of the LFS data series to include additional information available from the latest Population and Housing Census of Malaysia. This process of incorporating revised population benchmarks is referred to as rebasing. On the same note, revisions are carried out on LFS data for January to December 2024 in stages beginning with January to May and November to December data.

KEY REVIEWS

- In May 2025, the number of **employed persons** was on an uptrend, increasing by **0.3 per cent (+43.8 thousand persons)** to reach **16.86 million persons** as against the prior month (April 2025: 16.82 million persons). The **employment-to-population ratio**, a key indicator of an economy's ability to create employment, increased by **0.1 percentage points to 68.7 per cent** (April 2025: 68.6 per cent).
- Looking at the performance of employment by economic sectors, the number of employed persons in the Services sector showed a consistent upward trend, particularly in Accommodation and food & beverage services; Wholesale and retail trade; and Transportation & storage activities. On the same note, the Manufacturing, Construction, Agriculture, and Mining & quarrying sectors also recorded an increasing number of employed persons during the month.
- In May 2025, **75.1 per cent** of the total employed persons were in the **employees'** category. This category posted an increase of **0.2 per cent (+24.6 thousand persons)** to **12.66 million persons** compared to 12.63 million in April 2025. A similar trend was also observed in the number of **own-account workers**, which rose by **0.5 per cent (+14.2 thousand persons)** to **3.18 million persons** (April 2025: 3.16 million persons).
- The number of **unemployed persons** in May 2025 decreased further, dropping by **0.7 per cent (-3.5 thousand persons)** to **522.4 thousand persons** (April 2025: 525.9 thousand persons). May's **unemployment rate** remained at **3.0 per cent** as recorded last month.
- In May 2025, the number of the **labour force** continued its upward trend, rising by **0.2 per cent (+40.3 thousand persons)** month-on-month to **17.38 million persons** (April 2025: 17.34 million persons). The **labour force participation rate (LFPR)** during the month was unchanged at **70.8 per cent** as in the previous month.
- During the month, the number of persons **outside the labour force** increased by **0.1 per cent (+7.4 thousand persons)** to **7.18 million persons** compared to 7.17 million persons in April 2025. **Housework/ family responsibilities** were the largest component of the outside labour force, with a share of **43.7 per cent**, followed by the **schooling/ training** category at **41.0 per cent**.
- The country's labour market is expected to continue expanding and remain resilient in the forthcoming months, supported by government policies, macroeconomic stability, and investments in human capital. Despite ongoing global challenges, strong domestic fundamentals and sustained investment in human capital help maintain the stability and steady performance of the labour market.

1 INTRODUCTION

MALAYSIA'S LABOUR MARKET IN MAY 2025 REMAINED DYNAMIC AND PROGRESSIVE, SUPPORTED BY ONGOING EFFORTS IN EMPLOYMENT CREATION AND INCLUSIVE ECONOMIC PARTICIPATION

Malaysia's economic and social landscape in May 2025 reflected a firm commitment to inclusive growth, regional influence, and human capital development. From a regional perspective, Malaysia took the lead in the first phase of ASEAN's regional energy grid integration, connecting Vietnam, Malaysia, and Singapore. With Malaysia's major national energy playing a central role, this project will later expand further to include Cambodia, Thailand, as well as Sarawak¹. This project will strengthen Malaysia's position as a key energy hub and enhance regional sustainability and economic resilience. Concurrently, Malaysia's chairmanship of ASEAN 2025 was marked by the ASEAN Leaders Centre initiative, which aims to deepen cross-border business collaboration². This initiative aims to involve not only government but also the private sector and civil society in the development of regional policies, with the goal of expanding trade and investment opportunities across ASEAN and thus contributing directly to Malaysia's economic growth as well as the labour market.

Apart from that, the MADANI Rakyat Programme (PMR) 2025 held in Tawau, Sabah showcased the government's strategy to combat poverty through entrepreneurship and infrastructure development. The three-day event attracted over 150,000 visitors and featured a wide range of activities, including business matching sessions, job fairs, and the launch of the Solar MADANI initiative, which allocated RM350 million for solar-powered street lighting in rural communities. The program also facilitated RM3.4 million in financing to local entrepreneurs and generated nearly RM1 million in total sales³. This highlighted the effectiveness of community-level programs in stimulating economic growth.

Meanwhile, the Social Security Organisation (SOCSO) hosted the MYFutureJobs Premium Carnival 2025 on 10 and 11 May at the Kuala Lumpur Convention Centre (KLCC). This carnival offered over 10,000 high-profile job opportunities, with more than 70 per cent of roles in the executive category and salaries reaching up to RM16,000. Furthermore, this event brought together several prominent employers from the financial, energy, as well as the automotive sectors, and featured on-the-spot interviews, resume reviews, and career talks by industry experts⁴. This initiative reinforced the government's dedication to strengthening an inclusive and resilient nation's employment ecosystem. Aligned with this promising situation, Malaysia's labour market in May 2025 remained dynamic and progressive, supported by ongoing efforts in employment creation and inclusive economic participation. Therefore, a vibrant labour force condition was observed during the month with a positive trend in the number of employed persons, while the unemployed further decreased.

In the meantime, Malaysia's Leading Index (LI) in April 2025 sustained its upward annual trend, edging up by 0.5 per cent to 113.6 points compared to 113.0 points recorded in April 2024. On a monthly basis, the LI also posted a rise of 0.8 per cent over the previous month. The smoothed growth rate of the LI for April 2025 remains below the 100.0 points, reflecting Malaysia's economic prospects continue to demonstrate resilience, supported by a positive labour market and sustained domestic demand. At the same time, Malaysia's external trade indicators in May 2025 showed a decline for both exports and imports, with exports reduced by 5.2 per cent (April 2025: -2.8%) and imports decreasing by 2.0 per cent (April 2025: +14.1%).

2 EMPLOYED PERSONS

The number of employed persons was on an uptrend in May 2025

In May 2025, the number of **employed persons** was on an uptrend, increasing by **0.3 per cent (+43.8 thousand persons)** to reach **16.86 million persons** as against the prior month (April 2025: 16.82 million persons). Seasonally adjusted figures also reflected a rise of 0.3 per cent in the employed persons. Compared to May^r 2024, the number of employed persons rose by 2.9 per cent, representing an increase of 468.9 thousand persons from the previous year's total of 16.39 million persons.

Looking at the performance of employment by economic sectors, the number of employed persons in the Services sector showed a consistent upward trend, particularly in Accommodation and food & beverage services; Wholesale and retail trade; and Transportation & storage activities. On the same note, the Manufacturing, Construction, Agriculture, and Mining & quarrying sectors also recorded an increasing number of employed persons during the month.

The **employment-to-population ratio**, a key indicator of an economy's ability to create employment, increased by **0.1 percentage points to 68.7 per cent** (April 2025: 68.6 per cent). Year-on-year, the ratio went up by 0.4 percentage points compared to 68.3 per cent in May^r 2024 [**Chart 1**].

Chart 1: Employed persons and employment-to-population ratio, January^r - May^r, November^r - December^r 2024, and January - May 2025

Note: ^r Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

In May 2025, **75.1 per cent** of the total employed persons were in the **employees'** category. This category posted an increase of **0.2 per cent (+24.6 thousand persons)** to **12.66 million persons** compared to 12.63 million in April 2025. A similar trend was also observed in the number of **own-account workers**, which rose by **0.5 per cent (+14.2 thousand persons)** to **3.18 million persons** (April 2025: 3.16 million persons). This category predominantly consists of daily income earners engaged in small businesses, such as retailers, hawkers, market and stall vendors, as well as smallholders [**Chart 2**].

Chart 2: Employed persons by status in employment, April and May 2025

The number of **employed persons who were temporarily not working** during the month declined by **2.1 per cent (-2.0 thousand persons)**, totalling **90.8 thousand persons**, compared to the previous month (April 2025: 92.8 thousand persons). On a year-on-year basis, the number increased by 9.2 per cent (+7.7 thousand persons) as against 248.9 thousand persons recorded in May^r 2024. This category comprises individuals who were temporarily not working but were not classified as unemployed, as they had jobs to return to.

3 UNEMPLOYMENT

May's unemployment rate remained at 3.0 per cent

The number of **unemployed persons** in May 2025 decreased further, dropping by **0.7 per cent (-3.5 thousand persons)** to **522.4 thousand persons** (April 2025: 525.9 thousand persons). May's **unemployment rate** remained at **3.0 per cent** as recorded last month. Based on the seasonally adjusted estimates, the number of unemployed persons fell by 0.6 per cent, registering an unemployment rate of 3.0 per cent.

Comparing with one year earlier, the number of unemployed persons declined by 5.7 per cent (-31.7 thousand persons) from 554.1 thousand persons in May^r 2024. Accordingly, the unemployment rate declined by 0.3 percentage points from 3.3 per cent in May^r last year [Chart 3].

Chart 3: Unemployment January^r - May^r, November^r - December^r 2024, and January - May 2025

Note: ^r Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

By unemployment category, the **actively unemployed**, or those who were available for work and were actively seeking jobs, comprised **79.7 per cent** of the total unemployed. This category posted a decrease of **0.5 per cent (-2.2 thousand persons)** to **416.4 thousand persons** (April 2025: 418.6 thousand persons). By duration of unemployment for actively unemployed, those who were **unemployed for less than three months** encompassed **64.4 per cent**, while **5.1 per cent** were those who were in **long-term unemployment for more than a year**⁵.

Likewise, those who believed that there were no jobs available, or the **inactively unemployed** declined by **1.2 per cent (-1.3 thousand persons)** to register **106.0 thousand persons** (April 2025: 107.2 thousand persons) [Chart 4].

Chart 4: Unemployed category and duration of unemployment for the actively unemployed, April and May 2025

As exhibited in **Chart 5**, the unemployment rate for youth aged **15 to 24 years** declined by **0.1 percentage points** to **10.2 per cent** during the month, recording the number of **unemployed youths** at **297.7 thousand persons** (April 2025: 10.3%; 298.3 thousand persons). On the same note, the unemployment rate among youth aged **15 to 30 years** stood at **6.2 per cent**, with **399.0 thousand unemployed youths** (April 2025: 6.2%; 400.6 thousand persons).

Chart 5: The number of unemployed persons and unemployment rate by selected age groups, January^r - May^r, November^r - December^r 2024, and January - May 2025

Note: ^r Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

4 LABOUR FORCE

The LFPR during the month was unchanged at 70.8 per cent

In May 2025, the number of the **labour force** continued its upward trend, rising by **0.2 per cent (+40.3 thousand persons)** month-on-month to **17.38 million persons** (April 2025: 17.34 million persons). The **labour force participation rate (LFPR)** during the month was unchanged at **70.8 per cent** as in the previous month. Seasonally adjusted data also showed a 0.2 per cent increase in the labour force, with the LFPR recorded at 70.7 per cent.

On an annual basis, the number of the labour force edged up by 2.6 per cent, representing an addition of 437.2 thousand persons compared to 16.95 million in May^r 2024. Accordingly, the LFPR rose by 0.2 percentage points from 70.6 per cent recorded in May^r 2024 [**Chart 6**].

Chart 6: Labour force and LFPR, January^r - May^r, November^r - December^r 2024, and January - May 2025

Note: ^r Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

During the month, the upward trend in the labour force persisted for both males and females. The **male labour force** increased to **10.95 million persons** as against 10.92 million persons recorded in April 2025. Likewise, the **female labour force** rose to **6.44 million persons** from 6.43 million persons in the previous month. The LFPR for both genders, males and females, remained as in the prior month, with the **male LFPR at 83.3 per cent** and the **female LFPR at 56.4 per cent**.

As for the year-on-year, the male labour force went up by 3.0 per cent from 10.63 million persons in May^r 2024. Also, the female labour force rose by 1.9 per cent as compared to 6.31 million persons registered in the same month last year. Accordingly, LFPR for males rose by 0.3 percentage points from 83.0 per cent, while females' LFPR stood at 56.4 per cent as recorded in May^r 2024 [**Chart 7**].

Chart 7: Labour force and LFPR by sex, January^r - May^r, November^r - December^r 2024, and January - May 2025

Note: ^r Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

5 OUTSIDE LABOUR FORCE

Housework/ family responsibilities were the largest component of the outside labour force

During the month, the number of persons **outside the labour force** increased by **0.1 per cent (+7.4 thousand persons)** to **7.18 million persons** compared to 7.17 million persons in April 2025. Year-on-year, this number went up by 1.8 per cent (+125.8 thousand persons) from 7.05 million persons in May⁶ last year. **Housework/ family responsibilities** were the largest component of the outside labour force, with a share of **43.7 per cent**, followed by the **schooling/ training** category at **41.0 per cent** [Chart 8].

Chart 8: Share of outside labour force by reasons for not seeking work, April and May 2025

6 LOOKING AHEAD

Malaysia's economy in May 2025 was generally on solid footing, correspondingly with a stable fiscal foundation, commendable trade growth, and recovering investor confidence. Low inflation and encouraging Gross Domestic Product (GDP) growth also pointed to stronger economic momentum. Malaysia's favourable economic performance during the month was supported by a combination of strong internal and external factors. Key contributing factors include a stable and dynamic labour market with a consistently low unemployment rate, Malaysia's improved trade performance, and the continued strong exports of electrical and electronic (E&E) goods, supported by global demand for semiconductors⁶.

In addition, strategic investments and high-impact projects, which are the implementation of initiatives under the Twelfth Malaysia Plan (RMKe-12) and the New Industrial Master Plan 2030 (NIMP 2030), are expected to enhance the nation's competitiveness⁷. In line with this, Malaysia's strong economic performance has had a direct and positive impact on the nation's labour market. The Malaysian labour market continues to demonstrate positive momentum, with a low unemployment rate, stable employment growth, and high labour force participation.

Therefore, the country's labour market is expected to continue expanding and remain resilient in the forthcoming months, supported by government policies, macroeconomic stability, and investments in

⁶ <https://www.utusan.com.my/ekonomi/kewangan/2025/06/perdagangan-catat-pertumbuhan-rm252-48-bilion-pada-mei/>
⁷ <https://www.astroawani.com/berita-malaysia/ekonomi-malaysia-2025-dijangka-kukuh-ini-7-faktor-pemacu-pertumbuhan-508592>

human capital. Despite ongoing global challenges, strong domestic fundamentals and sustained investment in human capital help maintain the stability and steady performance of the labour market.

Malaysia also holds a competitive and stable position compared to its ASEAN neighbours in 2025, particularly in terms of labour market immovability, low unemployment rate, and high labour force participation. The country demonstrates strong resilience through reskilling policies, investments in Technical and Vocational Education and Training (TVET), and dynamic labour market monitoring. Furthermore, Malaysia's role as the ASEAN Chair in 2025 is seen to have a significant and multidimensional impact on the nation's labour market, especially in terms of job opportunities, investment, and human capital development.

As the host of more than 300 ASEAN meetings and summits throughout the year, this is anticipated to generate high demand in the Services sector, including hospitality, logistics, security, and translation⁸. The spillover effects will also contribute to an increase in temporary and contract employment, particularly in the Klang Valley and major cities.

In addition, the ASEAN platform can be leveraged to strengthen mutual recognition arrangements for cross-border skills, opening up opportunities for Malaysians to work in neighbouring countries in fields such as engineering, healthcare, and information technology⁹. Therefore, Malaysia's involvement as ASEAN Chair in 2025 is expected to benefit not only economic opportunities but also the labour market, by fostering a more dynamic, open, and competitive workforce at both regional and global levels.

Notes:

1. Labour Force Survey indicators for 2019 and previously still using the estimated population data of the Population and Housing Census of Malaysia 2010

2. ¹For 1982- 2000, category of occupation are classified according to the "Dictionary of Occupational Classification, 1980" as follows:

- 1: Professional, technical and related workers
- 2: Administrative and managerial workers
- 3: Clerical and related workers
- 4: Sales workers
- 5: Service workers
- 6: Agricultural, animal husbandry and forestry workers, fishermen and hunters
- 7: Production and related workers, transport equipment operators and labourers

3. ²For 2001 - 2010, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 1998" as follows:

- 1: Legislators, senior officials and managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical workers
- 5: Service workers and shop and market sales workers
- 6: Skilled agricultural and fishery workers
- 7: Craft and related trade workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

4. ³For 2011 - 2015, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2008" as follows:

- 1: Managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical support workers
- 5: Service workers and shop and market sales workers
- 6: Skilled agricultural, forestry and fishery workers
- 7: Craft and related trades workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

5. ⁴For 2016 - 2021, category of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2013" as follows:

- 1: Managers
- 2: Professionals
- 3: Technicians and associate professionals
- 4: Clerical workers
- 5: Service and sales workers
- 6: Skilled agricultural, forestry, livestock and fishery workers
- 7: Craft and related trades workers
- 8: Plant and machine-operators and assemblers
- 9: Elementary occupations

6. ⁵For 2022 onwards, categories of occupation are classified according to the "Malaysia Standard Classification of Occupations (MASCO) 2020"7. ^f Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

Notes:

1. Labour Force Survey indicators for 2019 and previously still using the estimated population data of the the Population and Housing Census of Malaysia 2010

2. ¹For 1982 - 2000, industry was classified according to the "Malaysia Industrial Classification, (Updated) 1972" as follows:

A: Agriculture, forestry, livestock and fishing
 B: Mining and quarrying
 C: Manufacturing
 D: Electricity, gas and water
 E: Construction
 F: Wholesale and retail trade, restaurants and hotels
 G: Transport, storage and communications
 H: Finance, insurance, real estate and business services
 I: Community, social and personal services

3. ²For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

A: Agriculture, hunting and forestry
 B: Fishing
 C: Mining and quarrying
 D: Manufacturing
 E: Electricity, gas and water supply
 F: Construction
 G: Wholesale and retail trade; repair of motor vehicles, motorcycles and personal and household goods
 H: Hotels and restaurants
 I: Transport, storage and communications
 J: Financial intermediation
 K: Real estate, renting and business activities
 L: Public administration and defence; compulsory social security
 M: Education
 N: Health and social work
 O: Other community, social and personal service activities
 P: Private households with employed persons

4. ³For 2010 - 2022, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:

A: Agriculture, forestry and fishing
 B: Mining and quarrying
 C: Manufacturing
 D: Electricity, gas, steam and air conditioning supply
 E: Water supply; sewerage, waste management and remediation activities
 F: Construction
 G: Wholesale and retail trade, repair of motor vehicles and motorcycles
 H: Transportation and storage
 I: Accommodation and food service activities
 J: Information and communication
 K: Financial and insurance/takaful activities
 L: Real estate activities
 M: Professional, scientific and technical activities
 N: Administrative and support service activities
 O: Public administration and defence; compulsory social security
 P: Education
 Q: Human health and social work activities
 R: Arts, entertainment and recreation
 S: Other service activities
 T: Activities of households as employers

5. ⁴For year 2011-2019 & 2021-2024, total includes 'Activities of extraterritorial organizations and bodies'6. ⁶ Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

Notes:

1. Labour Force Survey indicators for 2019 and previously still using the estimated population data of the the Population and Housing Census of Malaysia 2010

2. ¹For 1982 - 2000, industry was classified according to the "Malaysia Industrial Classification, (Updated) 1972" as follows:

A: Agriculture, forestry, livestock and fishing
 B: Mining and quarrying
 C: Manufacturing
 D: Electricity, gas and water
 E: Construction
 F: Wholesale and retail trade, restaurants and hotels
 G: Transport, storage and communications
 H: Finance, insurance, real estate and business services
 I: Community, social and personal services

3. ²For 2001 - 2009, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2000" as follows:

A: Agriculture, hunting and forestry
 B: Fishing
 C: Mining and quarrying
 D: Manufacturing
 E: Electricity, gas and water supply
 F: Construction
 G: Wholesale and retail trade; repair of motor vehicles, motorcycles and personal and household goods
 H: Hotels and restaurants
 I: Transport, storage and communications
 J: Financial intermediation
 K: Real estate, renting and business activities
 L: Public administration and defence; compulsory social security
 M: Education
 N: Health and social work
 O: Other community, social and personal service activities
 P: Private households with employed persons

4. ³For 2010 - 2022, industry was classified according to the "Malaysia Standard Industrial Classification (MSIC) 2008" as follows:

A: Agriculture, forestry and fishing
 B: Mining and quarrying
 C: Manufacturing
 D: Electricity, gas, steam and air conditioning supply
 E: Water supply; sewerage, waste management and remediation activities
 F: Construction
 G: Wholesale and retail trade, repair of motor vehicles and motorcycles
 H: Transportation and storage
 I: Accommodation and food service activities
 J: Information and communication
 K: Financial and insurance/takaful activities
 L: Real estate activities
 M: Professional, scientific and technical activities
 N: Administrative and support service activities
 O: Public administration and defence; compulsory social security
 P: Education
 Q: Human health and social work activities
 R: Arts, entertainment and recreation
 S: Others service activities
 T: Activities of households as employers

5. ⁴For year 2011-2019 & 2021-2024, total includes 'Activities of extraterritorial organizations and bodies'6. ⁵ Revision based on the current population estimates from the Population and Housing Census of Malaysia 2020

Table F: Employed person by status of employment, Malaysia, 1982 - 2024

('000)
