

HARI STATISTIK SEDUNIA MALAYSIA 20.10.2015

Data Berkualiti, Kehidupan Sejahtera

Tinta daripada... YB Dato' Sri Abdul Wahid bin Omar Menteri di Jabatan Perdana Menteri

Statistik merupakan tunjang utama dalam penentuan dasar dan polisi negara. Ianya signifikan sebagai input dan indikator penting kepada pembangunan negara.

Jabatan Perangkaan Malaysia selaku pembekal data rasmi negara sentiasa berkeupayaan dalam menyediakan data yang berkualiti seiring dengan keperluan transformasi negara. Kejayaan dan kemajuan

negara kita akan memberi impak positif terhadap kesejahteraan rakyat hasil daripada kemandapan dasar dan polisi yang telah dirancang.

Justeru, bagi menghargai dan mengiktiraf peranan statistik dalam pembangunan ekonomi negara, marilah kita bersama-sama menayakan program-program yang telah disusun sempena sambutan Hari Statistik Sedunia 2015, 20 Oktober 2015. Data Berkualiti, Kehidupan Sejahtera.

ABSTRACT

This study is a secondary data analysis from the National Health Morbidity Survey III, a population-based study conducted in 2006. A total of 7,749 children between 7 and 12 years old were recruited into the study. This study seeks to report the prevalence of overweight (including obesity) children in Malaysia using international cut-off point and identify its associated key social determinants. The results show that the overall prevalence of overweight children in Malaysia was 19.9%. The urban residents, males, Chinese, those who are wealthy, have overweight or educated guardians showed higher prevalence of overweight. In multivariable analysis, higher likelihood of being overweight was observed among those with advancing age (OR=1.15), urban residents (OR=1.16, 95% CI: 1.01-1.36), the Chinese (OR=1.45, 95% CI: 1.19-1.77), boys (OR=1.23, 95% CI: 1.08-1.41), and those who came from higher income family. In conclusion, one out of five of 7-12 year-old-children in Malaysia were overweight. Locality of residence, ethnicity, gender, guardian education, and overweight guardian were likely to be the predictors of this alarming issue. Societal and public health efforts are needed in order to reduce the burden of disease associated with obesity.

Relevant and timely production of official statistics are crucial to not only the efficient functioning of an economy; their effective dissemination and communication also play an equally pivotal role in aligning market expectations as well as providing basic information for planning, evaluation and decision-making at all levels. Official statistics produced by national statistical agencies enable policy makers and the general public to keep abreast with current economic conditions and to respond effectively to the changes.

Globalization and rapid technological advancements have transformed economic-data dissemination and communication towards greater timeliness, openness and coverage of various social, environmental and economic statistics. National statistical agencies in both developed and developing countries are rising to the challenge by (a) meeting the needs and expectations of the

expert users, who play an influential role in researching, analyzing, interpreting and forecasting economic and financial conditions; (b) engaging the media more extensively to broaden coverage, respond swiftly to erroneous reports or misinterpretation and raise the level of general public's grasp of economic and financial issues; (c) improve clarity and comprehensiveness in media releases and statistical publications, and (d) strengthening user capabilities and interactions through user group training, workshops, seminars and feedback sessions.

Sesi Transformasi Statistik
BERSAMA KOMUNITI April - Ogos, 2015

Sesi Transformasi Statistik Bersama Komuniti yang telah berlangsung di seluruh Jabatan Perangkaan Malaysia (JP) Negeri bermula bulan April yang lalu, diteruskan lagi ke tiga buah JP Negeri iaitu di Johor, Sabah dan akhir sekali di Sarawak.

JP Johor telah mengadakan sesi ini pada 18 Ogos 2015 bertempat di Hotel Grand Bluewave Johor Bharu dan dirasmikan oleh YB Datuk Tee Siew Kiong, Pengerusi Jawatankuasa Pelancongan, Perdagangan & Kepenggunaan Johor. Seramai 200 orang peserta telah hadir meliputi agensi kerajaan dan pertubuhan perniagaan.

Manakala bagi JP Sabah, YBrs. Tn. Hj. Ismail Yusoff (TKPE) telah hadir dan merasmikan sesi transformasi yang diadakan di Hotel Four Points by Sheraton, Sandakan. Sesi ini telah dihadiri oleh 183 orang komuniti yang terdiri daripada kalangan agensi kerajaan (persekutuan & negeri), pihak PBT, pertubuhan perniagaan, persatuan perniagaan dan media.

Sesi terakhir telah dijayakan oleh JP Sarawak yang mana YBhg. Datuk Dr. Hj. Abdul Rahman Hasan telah sudi hadir merasmikan sesi tersebut. Ia telah diadakan pada 25 Ogos 2015 bertempat di Hotel Riverside Majestic, Kuching dan dihadiri oleh 109 orang komuniti.

Secara keseluruhan, sesi ini telah mendapat sambutan yang menggalakkan dan berjaya mencapai objektif iaitu meningkatkan kefahaman serta memperkukuhkan jalinan penyampaian perkhidmatan perangkaan kepada komuniti, selain mempromosikan Jabatan sebagai pembekal data rasmi negara.
