### Malaysia On Right Track In Sustainable Development - Najib

KUALA LUMPUR, Dec 9 (Bernama) – Malaysia has taken important steps to develop the global expertise needed to move it forward in sustainable development, said Prime Minister Datuk Seri Najib Tun Razak.

He said Malaysia was committed to supporting and implementing the United Nations's 2030 Development Agenda and the 11th Malaysia Plan, which mirrors the multi-dimensional nature of the Sustainable Development Goals, or SDGs.

## What is Sustainable Development Goals (SDGs)

The **Sustainable Development Goals (SDGs)**, officially known as **Transforming our world: the 2030 Agenda for Sustainable Development**, is an intergovernmental set of 17 aspiration Goals with 169 targets. SDGs are the 2030 core agenda in sustainable development which was agreed by world leaders on **25 September 2015** at the United Nations General Assembly (UNGA).

SDGs is the successor to the Millennium Development Goals (MDGs) which ended in 2015 consisted of 8 Goals and 21 Targets. SDGs were aspired to achieve the 2030 agenda in a balanced way for all three dimensions of sustainable development issues namely social, economy and environment.

“The new agenda is a promise by leaders to all people everywhere. It is a universal, integrated and transformative vision for a better world. It is an agenda for people, to end poverty in all its forms. An agenda for the planet, our common home. An agenda for shared prosperity, peace and partnership. It conveys the urgency of climate action. It is rooted in gender equality and respect for the rights of all. Above all, it pledges to leave no one behind.”

— UN SECRETARY-GENERAL BAN KI-MOON
