|                        | Source periodicity:                   | Annual  |
|                        | Source metadata:                      | n.a   |
|                        | Date last input received from source: | 6 months after the reference year   |
| 2. Data                | Variables collected:                  | <ol style="list-style-type: none"> <li>1. Information and communication technology Gross Domestic Product by industry</li> </ol>  |

| TOPICS  | ELEMENTS                                   | SUBJECT: INFORMATION AND COMMUNICATION SATELLITE ACCOUNT   |
|---|--|--|
|   |  | INFORMATION  |
| Characteristic and Collection                   |  | 2. Supply and use of information and communication technology products<br>3. Exports and imports of information and communication technology products<br>4. Income component of information and communication technology industry<br>5. Employment in information and communication technology industry<br>6. e-Commerce gross value added |
|   | Sampling:                                  | n.a  |
|   | Periodicity:                               | Annual   |
|   | Reference period:                          | Calendar year  |
|   | Base period:                               | 2010=100   |
|   | Date last updated:                         | Annual   |
|   | Link to release calendar:                  | Advanced release calendar  |
|   | Other data characteristics and collection: | n.a  |
| 3. Statistical Population and Scope of the Data | Statistical population:                    | All economic activities within the 2008 SNA production boundary.   |
|   | Geographical coverage:                     | Malaysia   |
|   | Sector coverage:                           | All economic sectors   |
|   | Institutional coverage:                    | Industries   |
|   | Item coverage:                             | n.a  |
|   | Population coverage:                       | 114 industry (by 5 digit MSIC 2008)  |
|   | Product coverage:                          | n.a  |
|   | Other coverage:                            | n.a  |
| 4. Statistical                                  | Key statistical concepts used:             | 1. System of National Accounts 2008 (2008 SNA)   |

| TOPICS                                       | ELEMENTS                           | SUBJECT: INFORMATION AND COMMUNICATION SATELLITE ACCOUNT   |
|--|------------------------------------|--|
|  |                                    | INFORMATION  |
| Concepts and Classifications Used            |                                    | 2. OECD Guide to Measuring the Information Society 2011<br>3. OECD Internet Economy Outlook 2012   |
|  | Classifications used:              | 1. International Standard Industrial Classification (ISIC) Rev. 4<br>2. Malaysia Standard Industrial Classification 2008 (MSIC), 2008<br>3. Central Product Classification ver. 2 (CPC ver.2)<br>4. Malaysia Classification of Products by Activity (MCPA), 2009   |
| 1. Statistical Computation and Dissemination | Aggregation and consolidation:     | National level   |
|  | Estimation:                        | By economic activity level   |
|  | Imputation:                        | By economic activity level   |
|  | Transformations:                   | n.a  |
|  | Validation:                        | n.a  |
|  | Index type:                        | n.a  |
|  | Weights:                           | n.a  |
|  | Seasonal adjustment:               | n.a  |
|  | Other computation and adjustments: | n.a  |
|  | Dissemination formats:             | Printed and free download (online)   |
| 6. Other Aspects                             | Recommended uses and limitations:  | n.a  |
|  | History :                          | 1. Information and communication technology Satellite Account, 2005 & 2010 <ul style="list-style-type: none"> <li>• The compilation is based on Supply-Use Table (SUT), 2005 structure and based on GDP based 2005</li> </ul> 2. Information and communication technology Satellite Account, 2005 – 2013 |
